

# The Legacy Continues ... HA1000-XLR

HA1000-XLR combines the very best of our two legendary products  
HA1000 and HA45 into one modern,  
robust, stylish and amazing drive-up system

**HAMILTON SAFE®**

A Wholly Owned Subsidiary of Gunnebo AB

# The Legacy Continues ... HA1000-XLR

HA1000-XLR upsend with optional Customer Video

HA1000-XLR upsend

HA1000-XLR downsend

- **HA1000-XLR** is available in both upsend and downsend
- **Engineered with two thoughts in mind** – Simplicity and Reliability
- **Adaptable** to replace old 4" units without replacing the tubing
- **Unit is made of rugged stainless steel frame** with polymer top and base for long-term durability
- **The service access is from the front**, therefore the back of the unit can be placed against the building

- **Easy to operate** with sets of call/send buttons above and below carrier door for customer convenience
- **Redesigned** speaker and microphone location and housing provide the clearest audio quality
- **Easy to install** as blowers and motors are located within the customer unit
- **Optional two-way video** for enhanced customer experience
- **Optional extended frame height** to accommodate oversized trucks and SUVs
