

TECHU

"TechU was priceless as a new technology teacher. I was supported, encouraged and able to ask questions during and after meetings. Through TechU I found out about the GAR EIG Grant opportunity which I applied for and received earning my school and our students \$15,000. I am so grateful to be a part of this group!"

~ Corrine Mack, Technology Teacher
Attendee since 2017

LEARN AND SHARE TECHNOLOGY

REGISTER for Free at mys3tech.com/s3/techu

You'll receive an email confirmation.

Register now as space is limited!

Register by August 15, 2020 and you'll be entered in a drawing to win a free Merge headset for your school!

PROGRAM OVERVIEW

TechU is a training/sharing program designed to help faculty and staff integrate technology into their curriculum. TechU helps educators feel comfortable with technology and then apply it in the classroom to elevate students' learning. Leave TechU with practical tools to use and share with your staff.

WHAT IT IS

- Hands On Demos
- Continued Education
- Best Practice Sharing
- Practical Lesson Ideas Across Curriculum
- Updates on Latest Hardware and Software

WHO SHOULD ATTEND

Technology coordinators, media specialists, computer teachers and administrators looking to integrate technology effectively into their school.

Round Table Discussion

Get together and share ideas, ask questions, and discuss concerns with your technology colleagues over a cup of coffee. Each Round Table will have a theme to help guide, but not limit, discourse. Each member is encouraged to share at least one best practice. S3 will provide materials and resources related to the topic.
