PROGRAM OVERVIEW

TechU is a training/sharing program designed to help faculty and staff integrate technology into their curriculum. TechU helps educators feel comfortable with technology and then apply it in the classroom to elevate students' learning. Leave TechU with practical tools to use and share with your staff.

WHAT IT IS

Hands On Demos
Continued Education
Best Practice Sharing
Practical Lesson Ideas Across Curriculum
Updates on Latest Hardware and Software

WHO SHOULD ATTEND

Technology coordinators, media specialists, computer teachers and administrators looking to integrate technology effectively into their school.

Round Table Discussion

Get together and share ideas, ask questions, and discuss concerns with your technology colleagues over a cup of coffee. Each Round Table will have a theme to help guide, but not limit, discourse. Each member is encouraged to share at least one best practice. S3 will provide materials and resources related to the topic.
